Hi Gabi and Cyril,

I wanted to share my personal thanks and kudos to the IDV team (Pranav, Bei, Tajeer and Bibek) for driving the IDV integration into Orchestration. For our first release of Orchestration IDV is one of the top 4 DS modules we want to integrate and the IDV team has been ahead of all teams in terms of integration and collaboration so far. The amount of ownership and leadership shown by Pranav and Bei has helped make this engagement smooth.

We are almost done with our backend integration and are close to finishing our first module implementation with a new design in May.

I hope we can demo the final modules in our early designer experience sometime in June/July.

Thanks for all your support and help.

Thanks,
