Dear Mr. Khare:

Recently you reviewed an article submitted to IEEE Access entitled, "Influencer-Driven Paradigm Shifts: Analyzing Sustainability and Customer Behavior in Cell Phone and E-Auto Industries via Social Media Analytics". Please note that this article was rejected, and the authors were asked to update their article based on the reviewers' concerns.

The authors have resubmitted their revised article and supplied a "list of updates" that highlights all edits made, as well as their responses to the previous reviewers' concerns.

We would appreciate if you could take another look at this improved version to determine if your concerns have been addressed, and to ensure that you are satisfied with the updates.

After completing the review, you can easily receive credit on your Publons profile.

For additional information on IEEE Access and tips on completing a quality review, please visit our [Reviewer Best Practices guide](#).

To reply to this reviewer invitation, please click the link below to register with our online manuscript review system, or you may email me with your reply. If you are unable to review at this time, I would appreciate your recommendation for another expert reviewer.

*** PLEASE NOTE: This is a two-step process. After clicking on the link, you will be directed to a webpage to confirm. ***

Agreed: https://mc.manuscriptcentral.com/ieee-access?URL_MASK=716bbccc55a24994aeb68122e0479569

Declined: https://mc.manuscriptcentral.com/ieee-access?URL_MASK=8d08c0fe79d14078817cbc5498f1ef5e

Once you accept my invitation to review this manuscript, you will be notified via email with directions on how to access the manuscript and the reviewer instructions in the Reviewer Center.

Thank you for your assistance with the peer review of this IEEE Access article.

Sincerely,

Dr. Berdakh Abibullaev
IEEE Access Associate Editor

TITLE: Influencer-Driven Paradigm Shifts: Analyzing Sustainability and Customer Behavior in Cell Phone and E-Auto Industries via Social Media Analytics

AUTHORS: Mohammadian, Noushin; Valilai, Omid Fatahi

ABSTRACT: The increasing importance of social media stems from its pervasive influence on customer behavior, particularly with the rising prominence of influencers. Understanding how influencers impact user loyalty and behavior has

become a focal point for researchers. This study delves into the capabilities of social media analytics and the influential roles of key individuals in shaping customer behaviors. Employing a system dynamics approach and leveraging Python for sentiment analysis, this study investigates the interplay between influencers and customer behaviors. A system dynamics model is developed to elucidate these capabilities, integrating them through omnichannel touchpoints across product lifecycle management (PLM) cycles to drive sustainability in customer behavior models. The core concept of Social Media Analytics serves as the foundation for integrating influencer roles into touchpoints where customers engage with social media, particularly within omnichannel strategies. The developed causal model captures the interactions among agents and the influencing parameters, exploring various scenarios to analyze the influencer-driven paradigm shift. Case study models focusing on the Cell phone and E-Auto industries provide insights into the capabilities of influencer-driven trends in shifting consumer behavior paradigms toward sustainability perspectives.

Per Section 8.2.1.C.4 of the IEEE PSPB Operations Manual, information contained in an article under review is confidential and shall not be shared with others, nor shall reviewers use non-public information contained in an article to advance their own research or financial interests.

Per Section 8.2.2.A.2 of the IEEE PSPB Operations Manual, all editors and referees shall immediately DECLINE from review of articles in which there exists a conflict of interest.

If you have any questions, please contact the article administrator: Dr. Shefali Pandey shefali.pandey@ieee.org. In addition, if you would like to get a certificate after completing this review, please send an email to ieeeaccess@ieee.org.
