Dear Mr. Khare:

The manuscript entitled "How Information Contributors Establish High-Credibility Online Health Information" has been submitted to IEEE Access. Since your expertise is relevant to this article, we would be grateful if you would consider reviewing it.

The abstract appears at the end of this letter, along with the names of the authors. Please let me know within 2 days if you will be able to accept my invitation to review. If you agree to review, we ask that you provide your review comments within **7 days** to assist IEEE Access in maintaining its expedited peer review process of 4 to 6 weeks. If you are interested in reviewing but need additional time to complete the review, we can grant a reasonable deadline extension upon request. For additional information on IEEE Access and tips on completing a quality review, please visit our [Reviewer Best Practices guide](#).

After completing the review, you can easily receive credit on your Publons profile.

As a reviewer, you will need to provide an Accept or Reject recommendation with comments.

When reviewing the article, keep in mind the following IEEE Access qualities:

1. The article must be technically sound.
2. The article must be original writing that enhances the existing body of knowledge in the given subject area. However, review articles and surveys are acceptable if they add value, even if new data/concepts are not presented.
3. Applied research articles are acceptable if they are useful to the engineering community on how to demonstrate a technology that may not be novel.
4. The references that are provided must be applicable and sufficient.
5. The title is applicable and appropriate.

To reply to this reviewer invitation, please click the link below to register with our online manuscript review system, or you may email me with your reply. If you are unable to review at this time, I would appreciate your recommendation for another expert reviewer.

*** PLEASE NOTE: This is a two-step process. After clicking on the link, you will be directed to a webpage to confirm. ***

Agreed: https://mc.manuscriptcentral.com/ieee-access?URL_MASK=823b9b809f6d49ccbe00381f28b03082

Declined: https://mc.manuscriptcentral.com/ieee-access?URL_MASK=8509f518978242a29b24691a9c4688b5

Once you accept my invitation to review this manuscript, you will be notified via email with directions on how to access the manuscript and the reviewer instructions in the Reviewer Center.

Thank you for your assistance with the peer review of this IEEE Access article.

Sincerely,

Prof. Derek Abbott
Editor-in-Chief, IEEE Access

MANUSCRIPT DETAILS

TYPE: Research Article

TITLE: How Information Contributors Establish High-Credibility Online Health Information

AUTHORS: Qiu, Junping; YUTIAN, FU; QINZE, MI; TINGYONG, ZHANG

ABSTRACT: **Purpose** – This study aims to explore the credibility establishment strategies utilized by health information contributors when creating content to guide them in establishing high-credibility and user-trusted health information. **Design/methodology/approach** – This study conducts in-depth interviews with 39 online health information contributors to investigate the creative strategies they adopt to establish credibility. This study also integrates mathematical models to assess the contribution of each strategy to enhancing the credibility of online health information. **Findings** –Results confirm the Information contributors use credibility establishment strategies that can be broadly categorized into 13 types with 52 specific strategies. The most significant contributors are the focus, review, supportive information search, credibility enhancement awareness, and specific writing strategy types. When evaluating the contributions of these strategies, users tend to prioritize creative strategies that enhance the expression and attractiveness of articles, while experts lean toward strategies that emphasize the professionalism and authenticity of information content. **Originality/value** – From the perspective of health information contributors, conducting an exploratory analysis of their credibility establishment strategies can guide them in producing online health information that is highly credible and trusted by users.

Per Section 8.2.1.C.4 of the IEEE PSPB Operations Manual, information contained in an article under review is confidential and shall not be shared with others, nor shall reviewers use non-public information contained in an article to advance their own research or financial interests.

Per Section 8.2.2.A.2 of the IEEE PSPB Operations Manual, all editors and referees shall immediately DECLINE from review of articles in which there exists a conflict of interest.

If you have any questions, please contact the article administrator: Mr. Sridam Malo s.malo@ieee.org. In addition, if you would like to get a certificate after completing this review, please send an email to ieeeaccess@ieee.org.
